A lot of time investment goes into educating families about the Early Learning HUB, OHA and the CCO. The CCO engages with the community through hosting events, community-based granting to support the community health, to be healthier, and holds community listening sessions to ensure alignment with community voice. • Q: How are community-based grants funded? • A: CCOs' receive funding through OHA paid by tax dollars in the form of a per member per month amount, and a percentage of profits go back into the community through granting. • Q: Are there concerns about procurement? • A: YCCO is a model CCO for other CCO's which gives some confidence that we will receive another contract. • Q: Can you say a couple of words about the new director of OHA? • A: The new director of OHA has worked in the Biden Administration in health policy, shares our values of equity, primary prevention, and investing in Early Learning for new families and mothers who are expecting. • Q: Does the CCO consider potential negative, long-term impacts on the health outcomes of individuals who go through the utilization and prior auth process then get denied services that have had them for years prior? • A: This decision does not happen at the CCO level.
