## **ENCOUNTER CONSENTS AND TELEMEDICINE**

Under the COVID-19 emergency temp OAR 410-120-0011(5) and per Governor Brown's executive order 20-03 and any subsequent extensions of such order. The following applies for Telemedicine visits regarding consents:

**The expected practice would be that as part of the telemedicine visit between a patient and provider, documentation in the medical record would include:**

- Consent for the telemedicine visit (per OHA guidance on telemedicine) – refer to the COVID-19 Provider guide. 410-120-1200 and 410-130-0610
- Documented verbal consent of the patient for the sterilization / hysterectomy in the patient's medical record
- Recommend following the tele visit, a hard copy of the consent form should be mailed to the patient with a SASE so that form can be returned to provider for addition to medical records
- The date of the telemedicine visit, consent discussion and documented verbal consent would be the date referenced for any time frame requirements (such as the >30 days)
- The telemedicine visit records with the consent forms should be attached to the
