BACKGROUND

From its beginning in 2012, Yamhill Community Care (YCCO) has been a community-based, grassroots organization. When the call for CCO applications went out, the community decided it didn't want an outside agency making choices for those who live here. Instead, local health leaders came together and chose to form their own small CCO. YCCO is still led by the people in the community. Its governance and advisory boards are made up of a wide range of local sectors, including representation from area clinics and hospitals, local government, school districts, early childhood education and childcare, and Oregon Health Plan members.

YCCO serves as the Early Learning Hub for Yamhill County and engages in community outreach and support through its Community Prevention and Wellness Committee and Community Advisory Council.

PROPOSAL TOPICS

Project proposals must align with YCCO's vision and mission.

To inform alignment with selected YCCO Funding Tier, applicant may review the following resources:

- Community Health Improvement Plan
- Early Learning Strategic Plan
- Community Prevention and Wellness Strategic Plan
- Health Equity Plan

All of the above resources can be found on the YCCO website here: <https://yamhillcco.org/about-us/measuring-health/>

Proposals also must address populations experiencing some sort of disparity. Preference will be given to projects that address one or more underrepresented populations, including those in geographically rural or isolated areas, people of color, members of Oregon Tribes, non-English speakers, members of the LGBTQ+ community, people experiencing homelessness, those with physical or cognitive disabilities, or others as indicated. Proposals must also demonstrate that the populations being served or impacted were included in project development.

Project must support programs that address early childhood and family supports, the social determinants of health and equity, and/or population-level prevention programs.

Funding usually falls under these types of categories:

- Resource/foster care prevention and intervention
- School readiness and kindergarten transition

- SDOH-E: Education
