Yamhill Community Care (YCCO) Overview of Outpatient Services Levels of Care

The following is a general overview of the different “levels” of care for the YCCO behavioral health outpatient system. The use of “level” language is a method of communication that allows practitioners and other involved parties to understand the overall acuity of the YCCO members needs and the intensity of the services. While the level of care language is helpful, it is important to remember that each member’s needs are unique, and some members may move between levels as their clinical needs change. *Note:* This document is meant to be a quick reference guide and is not meant to replace the more detailed Level of Care document.

General Presentation

	Level A	Level B	Level C	Level D
